PROFILE

I'm a very versatile web specialist that specializes in front-end web development. I'm also knowledgeable in design skills that translate from print design to web design. For the past 8 years, I've been responsible for helping companies re-brand their digital and branding presence with new web branding and technologies. I'm comfortable with communicating, delegating, and managing time efficient projects with a creative team, working closely with clients and vendors to achieve a finished product.

WORK

Web Engagement Specialist @ Prisma Health, Greenville, SC 2016-NOW

I currently work with the Marketing Department to develop, manage, and enhance all public facing websites of the hospital system including their affiliates. I also developed new websites with the new company name from the former Greenville Health System to Prisma Health. This position involved front-end development knowledge.

Senior Web Specialist @ Allied Reliability Group, Charleston, SC 2011-2016

Worked with ARG and their affiliate companies to manage their digital branding, promotions, and digital presence. I also managed major projects to create both digital and printing marketing products for their trade shows and company conferences. I also managed all websites' digital presence, SEO, and campaigns.

Graphic Designer II @ Medical University of SC, Charleston, SC 2008-2011

Worked with the University Press creating print products for MUSC. Also helped create an online template program that allowed automated templates to be created and send print ready files directly to the onsite print shop.

EDUCATION

CERT Advanced Web Development @ Trident Technical College, Charleston, SC 2012-2013

Expanded my knowledge and training by taking a series of courses to increase my web development & coding skills.

BA Digital Design & Communications @ Winthrop University, SC 2003-2008

Attended Winthrop University in Rock Hill, SC where I learned basic and advanced design techniques. I also minored in communications.

PORTFOLIO

Over the past 12 years of my work experience, I have gained so much experience in different styles of coding and designing. Outside of the 3 selected works below, my online portfolio details more works that I have worked with.

> **AVAILABLE UPON REQUEST**

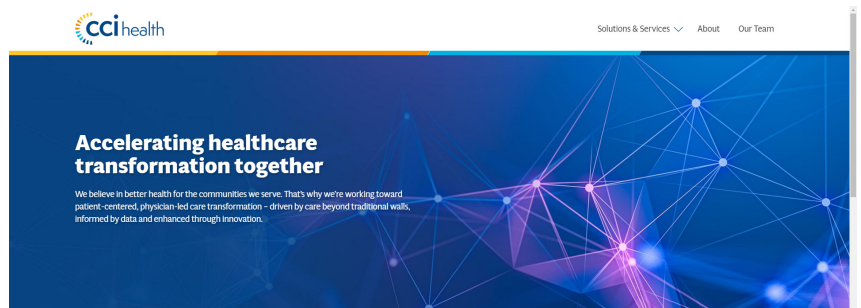

SELECTED WORKS

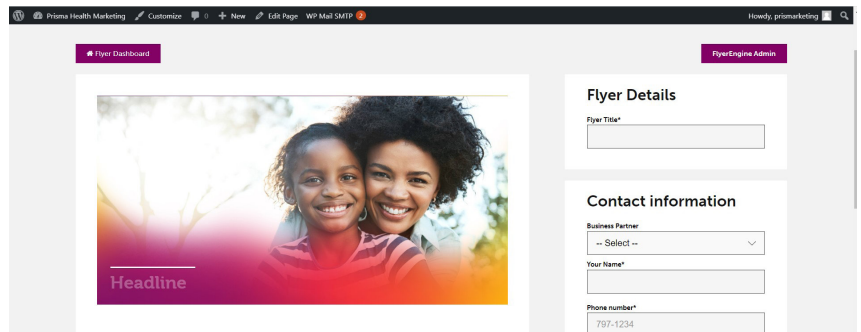

PRISMAHEALTH.ORG

In my currently position, I'm on the digital team for re-branding the Upstate's digital presence to the new Prisma Health branding. This included a new website design for the Upstate and working with 3rd party vendors for our other sub-major websites.

CCIHEALTH.ORG

I was given the task to revamp the CCI Health's website along with incorporating their new branding. The original design was outdated, and they wanted a new, modern, and responsive look for their clients.

FLYER ENGINE

I was able to take a previously developed Wordpress program and create an updated version. The new version has a more responsive look that's browser friendly. This also included a backend management area with Wordpress' CMS.
